EXPERIENCE

Nextbridge Private Limited, Lahore — Senior Software Engineer

MARCH 2019 - PRESENT

As a Senior Software Engineer at Nextbridge Private Limited, I lead a team of full-stack developers, ensuring efficient project execution and delivering high-quality features on time. My role involves designing scalable system architectures, mentoring team members, and collaborating with clients to translate requirements into actionable tasks.

Nextbridge Private Limited, Lahore — Software Engineer

MARCH 2018- MARCH 2019

As a Software Engineer at Nextbridge Private Limited, I developed, tested, and maintained high-quality code for web applications while collaborating with cross-functional teams to deliver features within deadlines. I contributed to scalable system architectures, performed debugging, and ensured adherence to coding standards through unit testing and code reviews.

Spix Systems Limited, Lahore — Web Developer

June 2016 - Dec 2017

As a Web Developer at Spix Systems Limited, I developed and maintained dynamic websites, ensuring seamless integration of front-end and back-end functionalities. I optimized website performance, implemented responsive designs, and resolved issues to meet client requirements while pursuing my BSCS degree.

EDUCATION

University of Sargodha, Sargodha — BSCS

AUGUST 2013 - OCTOBER 2017

English

PROJECTS

(Confidential Project) — Crowdsourcing platform

Maintained and developed features in that project. Done many optimizations in back-end applications for better performance. I also helped associates/team members. As a dedicated software developer, I oversaw our project's ongoing enhancement and stability. In addition to my responsibilities with the project itself, I actively supported and guided fellow associates in their development efforts. Whether it's troubleshooting technical issues, offering insights on best practices, or providing mentorship on coding techniques, I strived to empower my colleagues to excel in their roles.

Through effective project maintenance and collaborative development efforts, I contributed to the success and growth of our team, fostering a culture of innovation and continuous improvement.

NetSites USA — eCommerce platform

I developed and managed a robust eCommerce platform for Net Sites USA, a prominent car seat manufacturing business. The project encompassed end-to-end development and comprehensive maintenance for their official store and its associated network of marketing sites.
